GREENLAND

1550 A new and most unusual color combination that might well be the beginning of a new family of Tulips. Big, soft rosy-pink flowers, with a broad, dark-green "flame" on each petal and tall, strong 24-in. stems put Greenland in a class all by itself! Bulbs are scarce — please order early!

DWARF RED EMPEROR

1552 Breck's is proud to introduce the fabulous Dwarf Red Emperor with its big, early blooming, brilliant scarlet flowers on stems no higher than 5 inches! Flowering early, with Red Emperor, the huge blooms open up to 7 inches across, with a striking black-and-yellow base. Plant in rock gardens, edgings, under Daffodils for a magnificent splash of color. Foliage is a glossy green.

Star of Bethlehem

1748 Carpet your May garden with thousands of sparkling white stars! Each 6-inch stem holds a cluster of 5 or 6 white, star-shaped blooms above rich green, crocus-like foliage. Flowers close at evening to show bright green stripe on outside petals. Easy to grow . . . multiplies rapidly.

15 for 1.00; 30 for 1.98
100 for 6.35

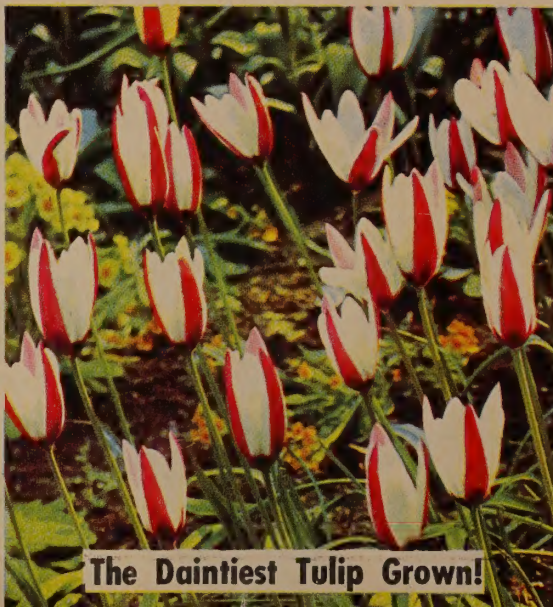

PEPPERMINT STICKS

1599 Dainty, miniature Peppermint Stick Tulips — a rare and unique wild species, discovered originally in Asia Minor — have smaller blooms than standard Tulips. They are just right for edgings, rock gardens or in front of evergreens and are so attractive, you'll wonder why everyone doesn't grow them.

Each long, pointed petal shows a wide triangle of bright cherry-red on a white background. Inside is a delicate satin-ivory with a striking purple-violet base. The whole effect is one of soft loveliness that resembles fine bone china, yet every flower is strong and long lasting. Stems are 12-14 inches tall.

Peppermint Stick, being a wild Tulip, should be planted in a permanent location, where it can grow and multiply for years. Even the bulbs do not look like ordinary Tulips — being quite small and wearing fleece-lined overcoats — but they should be planted 4 inches deep in a sunny location.

FIGURINE

1604 A May-flowering Miniature Tulip that grows only 14-in. high, with all the grace and beauty of a dainty figurine! The medium-sized, creamy-white flowers are edged and shaded with rose, with a glossy texture that resembles the finest china. Even the bulbs are smaller than standard Tulip bulbs, but they last for years. Plant in permanent locations such as rock gardens, edgings, etc. Figurine is excellent for planting close to Evergreens, where ordinary Tulips might be too tall.

100 for 17.95

FIRESPRAY

1602 Completely unlike any other Tulip you've ever seen! Here's why! Every bulb produces from 3 to 5 flaming, brilliant scarlet blooms, resembling giant sparks, on the same stem — like a spectacular display of fireworks — each practically a bouquet in itself! Only 9-inches tall, yet they're the earliest and brightest of all Tulips! Ideal for mass plantings, since you get up to five times as many blooms from every bulb! Because of its earliness, Firespray adds a note of bright color to Daffodil plantings.
